2. Also attached is a chart showing a listing of the items for which [] is responsible with a column in which action closed out has been recorded. Action has been closed out on all the recommendations for which [] Branch is responsible except No. 35 on which action is continuing. [] Branch has indicated completed action (or requested cancellation) on all recommendations for which responsible except Nos. 4, 27b, and 33. [] Branch has reported action closed out on all recommendations for which responsible except Nos. 15, 18e, 18g, and 23, and has indicated continuing action on Nos. 5, 19, 20, 26, and 32. (Requested, also, the latter items be dropped from future reports.) [] Branch has reported that no action can be taken on recommendation No. 18f pending a high-level policy decision.

3. Relatively few recommendations remain that can be closed out by some specific action, but will require continuing action for an undeterminable period of time. It is recommended that this special report no longer be required and that the respective Branches record the progress on the remaining recommendations in the Monthly Status Report.
